FREELANCE PROJECTS

March 2020 – E-Commerce website

June 2020 – Products and Services

September 2019 – Real Estate landing page

LANGUAGES / TECH

Javascript ES6 / TypeScript

Python / Django

React.js / Vue.js

Firebase / MySQL / Mongo

EXPERIENCE

Renotag, Vaughan, ON — Chief Technology Officer (React/Next.js)

October 2021 - Present

Rebuilt the current application to support a drastic change in the business model using Next.js, Tailwindcss, and Firebase DB.

Implemented coding best practices such as DRY code, API services, and linting configuration.

Canada Tax Reviews, Vaughan, ON — *Full-Stack Web Developer (Python/Django)*

June 2021 - October 2021

Developed and executed automation processes for our HubSpot and Five9 API integrations through both the GUI and via API.

Managed and maintained 4 servers.

Handled webhook integrations with EsignGenie.

Rentsync, Vaughan, ON — *Frontend Web Developer (Vue.js)*

September 2020 - June 2021

Built 30+ reusable components for a component library using Vue.js.

Utilized UI Kit CSS Framework.

Managed the component library as one of two repository maintainers.

EDUCATION

Bitmaker/General Assembly, Toronto, On — *Software Engineering Immersive*

June 2019 - September 2019

Completed 500 hours of intensive learning, where new skills were acquired and tuned in Python, Django, and React.
