WORK EXPERIENCE

CTO
Renotag

10/2021 - Present   *Toronto, Canada*

Achievements/Tasks

- Leveraged appropriate technologies, algorithms, and data structures to optimize cost calculations and ensure scalability as the user base grew.
- Developed a Minimum Viable Product (MVP) using Next.js, Tailwind CSS, and Firebase DB, providing a solid foundation for the web application's frontend, design, and database management.
- Oversaw the recruitment and selection process, ensuring the team had the necessary skills and expertise to successfully deliver on project goals.
- Actively participated in strategic decision-making, offering technical insights and recommendations to drive the company's growth and innovation.

Senior Developer
Blanc

12/2021 - 02/2022   *Toronto, Canada*

Achievements/Tasks

- Developed a robust API using fastApi to facilitate seamless interactions with speech-to-text and text-to-text translation services for custom integration partners.
- Integrated text-to-speech and speech-to-text functionalities to enable real-time translation of conversations for groups with members conversing in multiple languages.

Python Developer
Canada Tax Reviews

06/2021 - 11/2021   *Toronto, Canada*

Achievements/Tasks

- Developed and implemented automation processes utilizing HubSpot and Five9, significantly reducing manual effort and improving efficiency in lengthy processes.
- Created a PDF converter tool to extract data and populate PDF documents, signed documents, and HubSpot forms, streamlining document management processes.

Frontend Web Developer
Rentsync

09/2020 - 06/2021   *Toronto, Canada*

Achievements/Tasks

- Developed several components for a comprehensive component library using Vue.js, resulting in improved reusability and consistency across multiple projects.
- Conducted thorough testing and debugging to ensure the stability and compatibility of components across different browsers and devices.

SKILLS

Nextjs   Firebase   Jira   Hubspot
